

WEST TEXAS REHABILITATION CENTER

Legacy of Love

Edition

Breaking ground on the original treatment center in 1954 are patients Joe Robbins (4), Sondra Hampton (12), and Ken McClure (3) with his dad R.D. McClure

Issue 29 | May 2026

Leadership Letter

2026 definitely started on a positive note for West Texas Rehabilitation Center, as we celebrated a record Telethon. When the stroke of midnight came on January 31st, our 56th annual Telethon went off the air at \$2,034,000.

This marked an all-time record, and since that night, thanks to the generosity of so many folks, that number has reached \$2,091,000. This would not have been possible without our incredible donors, the businesses and individuals who provided items and services to our record-setting auction, our amazing corporate sponsors, and our wonderful employees and volunteers, who all came together to ensure a successful and fun-filled night!

I hope you will mark January 30, 2027, on your calendar for our 57th annual Telethon.

Five days after Telethon, we broke ground on an \$85 million project that will be the home to West Texas Rehab for the next 100 years! The outpouring of love and support for this project has been overwhelming, as evidenced by the incredible number of supporters who attended this ceremony. Our general contractor commented that they do these groundbreaking regularly, and they had never seen one this well attended.

We had so many positive comments, reflecting our consistent belief in our Lord and Savior, and that he has blessed this organization beyond anything any one person or group of people could do on their own.

Comments such as “Just wanted to acknowledge you guys and your entire team. Incredible week for the Rehab. Today was perfect; KTAB coverage was excellent. Speakers were spot on. Jesus was magnified,” “My thanks to your team. The event was first-class in all ways,” and “Great day and great event” reflect the love and care folks have for this organization. I hope you will read all of the groundbreaking spotlights and stay tuned to our website for building updates.

Our donors are the lifeblood of everything that happens in this organization. Their love for our patients, support for our mission, and commitment to the employees and legacy of the Rehab Center are a blessing to all of us. In May, at our Legacy of Love events in Abilene and San Angelo, we will honor 19 of these amazing folks who completed their earthly journeys in 2025.

Getting to honor and recognize these individuals who put so much time, energy, and resources into West Texas Rehab Center is one of the most special things we do. I hope you will look through these pages and see so many loved ones who folks have honored and memorialized in the past year. This is another amazing way that folks can bless others while supporting the Rehab Center.

Thank you for always being there for us! My hope is that God blesses the families of those we have lost, He continues to bless the mission of the Rehab Center, and He continues to watch over this great country of ours.

Blessings,

Steve Martin, President/CEO

Breaking New Ground

On February 5th, we proudly broke ground on our new Abilene facility — a milestone moment made possible by the generosity, vision, and unwavering support of our community. Patients, families, donors, board members, staff, and local leaders gathered to celebrate the future of rehabilitation services in West Texas.

As shovels turned the first dirt, it marked more than the start of construction; it marked the beginning of expanded access, advanced technology, and an even greater commitment to putting patients first. This new facility represents growth rooted in purpose — ensuring that individuals and families across our region continue to receive the highest quality care for generations to come.

We are deeply thankful to everyone who has supported this vision and to those who joined us to commemorate the day. Special thanks to Hallie Sosolik, who beautifully captured the spirit and significance of the event through her photography.

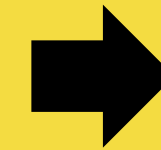

Scan the QR code to check out more photos from that day!

A Legacy That Continues To Build

From a single classroom in 1953 to a groundbreaking in 2026, West Texas Rehab continues building on a mission that has never wavered.

By Brilyn Daniels

On December 22, 1954, a group of West Texans stood on a patch of dirt with an audacious belief: their community could build something that did not yet exist in this region — a place where families could find skilled rehabilitation close to home.

At the time, many children needing intensive therapy were forced to travel across the state. The groundbreaking that winter was not simply the start of a construction project. It was the beginning of a promise.

That promise became West Texas Rehabilitation Center.

The roots of that moment stretch back even further. In 1953, West Texas Rehab began as a true community effort.

Local teachers, physicians, parents, Junior League volunteers, and numerous service clubs came together to confront two urgent realities: children living with Cerebral Palsy and the lingering effects of the Polio epidemic. There was no established system to support these families locally. So the community built one.

The Board of Directors hired Shelley Smith, the center's first physical therapist and founding director, to run the initial program in a single classroom at Bonham Elementary School. There, he served just 17 children. Equipment was minimal. Resources were donated. But the mission was already clear — and it has never changed:

“To improve the quality of life of those we serve regardless of financial circumstances.”

Legacy is often mistaken for something static, a monument to the past. The story of West Texas Rehab proves the opposite. Legacy is active. It grows. It adapts. It answers the needs of the next generation. The founders did not build a museum to their efforts. They built a living institution designed to evolve.

The new building stands as evidence that their vision is still unfolding.

Inside its future walls will be thousands of stories: first steps after injury, voices rediscovered, independence regained, confidence restored. The families who walk into that space may not know the names of those who stood in 1954, or the children who first received therapy at Bonham Elementary. But they will feel the results of that courage. Every patient today is connected to that original act of faith.

West Texas Rehab exists because people believed tomorrow mattered. The groundbreaking in 1954 created access where none existed. The groundbreaking in 2026 ensures that access continues — stronger, larger, and more capable than ever. Between those two dates lies more than seven decades of service, generosity, and relentless commitment to care. Each generation has added its own layer to the foundation.

That is what it means to build a *legacy of love*.

It is not only remembering those who came before. It is honoring them by continuing the work. It is choosing expansion over preservation. It is believing, as the founders did, that rehabilitation changes lives — and that this region deserves the very best of it.

The dirt turned in 2026 is the same soil that held the dreams of 1954. And just as before, the community is building more than a structure. It is building hope that will outlive us all!

Thanks to generous community support, our new facility is underway. If you would like to contribute to this transformative project or discuss available naming opportunities, please contact Chuck Rodgers at 325.669.4139!

Board Chairman Allen Baird welcoming everyone at the groundbreaking ceremony in 1954

Breaking ground on the original treatment center in 1954

Legacy of Love

2026 HONOREES

The Legacy of Love Wall at West Texas Rehabilitation Center was created to honor the memory of individuals whose kindness and generosity left a lasting impact on the organization. Since the inaugural Legacy of Love ceremony on March 27, 1994—when 134 names were first placed on the memorial wall—this tradition has continued each spring, recognizing special Rehab friends who have completed their earthly journey in the past year.

Each honoree found their own unique way to demonstrate a deep commitment to West Texas Rehab’s mission. Some served as volunteers, while others provided generous financial support toward operations or capital improvement projects. Many played a vital role on the board of directors, and some dedicated their careers as longtime employees. Several of these remarkable individuals served in more than one of these capacities.

Though their contributions may have taken different forms, all those memorialized on the Legacy of Love Wall share three important qualities: (1) they helped shape West Texas Rehab into a highly respected, forward-thinking organization; (2) they showed unwavering love, compassion, and support to patients and staff; and (3) they set a standard of excellence in patient care and integrity that continues to inspire others to build upon their own Legacy of Love

TWICE THE STRENGTH

Finn and James Lambert entered this world a little earlier than expected, but their parents, Katelyn and Tucker say their strength was evident from the very beginning.

By: Suzanne Click

Finn and James Lambert entered this world a little earlier than expected, but their parents, Katelyn and Tucker, say their strength was evident from the very beginning. “Finn and James were born 11 weeks early, but that didn’t seem to slow them down one bit. They spent about two months in the NICU receiving various treatments related to their prematurity. From the very beginning, they showed just how strong they are. Our little fighters were even able to go home before their expected birthdate!” Katelyn shared.

Though they share the same birthday and journey, their personalities couldn’t be more different. “Finn is our little wiggle worm—always on the move, rolling around, and working so hard toward crawling,” their parents said. James brings a calmer, sweeter energy to the pair. “James is our little chatterbox who loves cuddles and lights up the room with his sweet personality.” Together, they are the perfect balance!

Because Finn and James were expected to be born at just 28 weeks, Katelyn had to be flown to Austin so the boys could receive care in a Level 4 NICU. After discharge, continued follow-up care in Austin was recommended, but frequent long-distance travel felt overwhelming for the Lamberts.

“This would have required traveling back to Austin every couple of weeks for appointments, something we were not looking forward to knowing it would be a strain both financially and so hard with newborns. It seemed so daunting.” That’s when their pediatrician referred them to West Texas Rehabilitation Center! “Thankfully, our pediatrician referred us to West Texas Rehab for outpatient rehabilitative services, where the boys could receive the same high-quality care much closer to home. This made an enormous difference for our family and allowed us to focus more on their care and less on the stress of long-distance travel.”

Today, Finn and James receive physical therapy, occupational therapy, and speech therapy through our Preemie Program in San Angelo. This program follows babies born prematurely through the first three years of their life to ensure they are meeting all the developmental milestones.

Most recently, the boys came for an orthotic evaluation. Upon evaluation, it was determined that the backs of their heads are flatter than normal. Finn’s is flat with one side flatter than the other, and James’s is flat in the middle, which makes his head look wider. This can happen before birth (especially with twins or premature babies) because their skulls are softer and there’s less space. Katelyn and Tucker tried repositioning and physical therapy, but their head shapes didn’t improve enough. If not corrected, cranial asymmetry can cause joint dysfunction along with possible future auditory and visual problems.

They were both recommended to wear special helmets (cranial remolding helmets) for 3–6 months, 23 hours a day. The helmets don’t squeeze their heads — they gently guide growth into the flatter areas to help their heads become more even and balanced. Their parents describe the experience at West Texas Rehab with gratitude and relief. “Our experience at WTRC has been nothing but positive. Everyone we have worked with has been incredibly kind, encouraging, and knowledgeable. They are wonderful with the boys and genuinely invested in their growth and success, which has meant so much to us as parents.”

Because of the mission of West Texas Rehab, the support has extended beyond therapy and into easing the emotional and financial weight that often comes with a medical journey. “This has truly been a blessing. The boys’ journey has come with not only developmental challenges, but also the overwhelming burden of medical expenses. Through the donor sponsorship program, Finn and James were able to receive the cranial remodeling helmets—something that would not have been possible otherwise. Because of generous donor support, we are able to give Finn and James the best possible start in life and help build a confident, healthy future for them!” Katelyn and Tucker exclaim.

Finn and James Lambert’s story is proof that with the right care, love and support, even the smallest fighters can achieve incredible things.

DECKER

Capital Partners

We're Proud to Support the West Texas Rehabilitation Center

The causes that inspire you are as unique as the life you lead. We all live and give differently, but the support of the right financial partner has the power to multiply generosity. It is our privilege to help people make an impact - and to make our own.

Light Up a Life

Hospice of San Angelo's "Light up a Life" Christmas Tree Lighting Ceremony was a special night of remembrance on the LeGrand Memorial Boardwalk last December. This free event honored those that we loved and lost in 2025. Filled with singing, a presentation by Hospice of San Angelo, and a moment to honor loved ones no longer with us by placing a star in their memory on the Christmas Tree. Our loved ones illuminated the tree all season long. Below is a listing of those honored, with each name followed by the individuals who lovingly recognized them.
